Future Plans

From Hayley Hodgson ha

Hi Peter,

It's Hayley Hodgson from the mini workshop last year. I hope you and everyone else are doing well, I'm missing New York and all of you guys a lot. I was in my first play ever with my school this year, "Anne of Green Gables". I never had enough confidence to try out for it but now I do and it's my favorite thing about the school year. I have made so many friends and have learned so much from it. I've been eating very healthy and have lost some weight since the workshop and I honestly feel very happy. I took this year off from dance because of some personal issues but I think I'm going to rejoin this year. I never had that dream or desire as a child that every kid usually has, but I think I have finally found it... I guess for me it just took a little longer to find. I'm very serious about this business now and lately it's all I can think about because I'm graduating high school soon so I'm thinking more and more about my future. Broadway is my future and I'm already working incredibly hard to one day make it happen. I have to thank you for teaching me so much the two times I have gone to beginnings and for helping me figure out what I truly want in my life. I'm in a program at school called "AP Capstone" that could offer me many scholarships to schools in the states so hopefully when I graduate I can move down there, go to school, and see where that takes me.

Again, thank you very much and I hope to see you again soon!

-Hayley Hodgson
